Auditel delivers highly effective cost management solutions for the Motor Trade Sector in the UK

Since 1994, Auditel has built a reputation for going the extra mile to deliver ethical and sustainable cost management solutions. Solutions that, with our buying power and knowledge of the supplier market, pay for themselves many times over.

To achieve this, Auditel has developed the Total Cost of Purchase, a holistic approach which facilitates the analysis of costs from all angles and is now widely regarded as the most effective approach to cost management. With over 18 years of experience, you can rely on Auditel to manage your business overheads, allowing you to focus on your core business activities.

Applied in conjunction with our advanced tools and knowledge systems, Auditel regularly delivers results that not only meet, but exceed your expectations. We will always place your business with the supplier that best matches your organisation's needs and provide you with the best overall value.

With our hands-on skilled specialists and their wide ranging industry knowledge, we can ensure that you receive expert advice across all areas of expenditure at all times.

**'Auditel save 15% (on average) on running costs
for Motor Trade Businesses'**

Why choose Auditel?

Naturally, clients welcome the savings we make for them, but there are other positive outcomes from Auditel's cost management services that leave a lasting impression, too:

- Massive and immediate time-savings
- In-house resources freed up to concentrate on the core business
- Sustainable profit improvement
- Up-to-date, accurate and detailed cost management information
- Peace of mind as Auditel continues to keep a watching brief
- A non-disruptive service that runs quietly and efficiently in the background
- Auditel – a trusted, outsourced member of the management team
